Decided 5 Principles of rubbish disposal rules

- 1 By the sorting method!!
- 2 Using city designated garbage bag!!
- 3 On the collection day!!
- 4 Until 8:30 am!!
- 5 At the designated garbage collection point in the town!

Useful items for sorting

Isesaki, Azuma and Sakai district version

Guide Book for separating resources and waste

Garbage separation app [San a~ru(3R)]

| Classification | How to divide | How to dispose |
|--|--|--|
| Items to be disposed at garbage stations | Plastic containers packaging | ● If it is too dirty to clean, it cannot be recycled and should be disposed of in burnable garbage. ● Remove labels and price stickers as much as possible. ● Do not double bag (collect rubbish in a small bag and then put it in the designated rubbish bag) |
| | Burnable garbage | ● Drain food waste thoroughly before disposing of it. ● Wrap sharp objects in paper before putting them out. ● Soak flammable items in water before disposing them ● Remove soil from plants and trees and allow them to dry. |
| Items to be disposed at recyclable collection place. | Bottles | ● If the lid is difficult to separate, leave it on. ● If the label sticker cannot be removed, leave it on. ● Plastic lids should be disposed of as plastic. ● Metal lids are put out as non-burnable garbage ● Return beer bottles to the retailer if possible |
| | Cans | ● Dispose of cassette cylinders and spray cans as dangerous goods. ● Large cans (e.g. milk cans) must be crushed before disposal. ● Please cooperate with the collection of cans, place them in the town's recycling location. ● Dirty cans, oil cans, square's 1.8 liters cans (for food), oil cans (for vehicles), etc. should be put out as non-burnable garbage |
| | Non burnable garbage | ● Dispose of cassette cylinders and spray cans as dangerous goods. ● Dangerous items such as knives and broken items should be wrapped in paper and marked with the name of the item. ● Items that do not fit in the designated rubbish bags should be put out as oversize waste. |
| | Oversized waste | ● Paste a note with the town's name and surname written on it and put it out. ● Pruned trees should be 1 m or less in length and less than 10cm in thickness, bundled in a diameter of 30cm or less, and tied in two places with a string. ● Remove batteries from the main unit. ● Use up all the fuel and empty it. |
| | Used paper | ● Newspapers and leaflets should be tied together or placed in a paper bag. ● Magazines tied up with string ● Cardboard should be crushed and then tied with string. ● Paper cartons: ① Wash inside ② Open ③ Dry ④ Tie with string ● Collect miscellaneous items in a paper bag and fasten them in two places with gum tape, etc. |
| | Clothes | ● Wash and dry thoroughly ● Fold up and place in a designated bag for cans ● Tie the designated bag tightly ※If it is raining on the collection day, or rain is forecast, dispose of it the following month, or in a resource storage facility. |
| | Pet bottles | ● Put in a net bag that is installed at a resource collection site in the town block. ※There is no designated garbage bag for PET bottles. ● Dispose of labels and caps as plastic. ● Those with the plastic mark are put out as plastic |
| | Waste cooking oil | ● Place it in containers at the town's resource collection points ● Even expired or unopened products can be disposed of. ● Dispose of solid vegetable oil as burnable garbage. ● Animal cooking oil should be solidified with a coagulant and disposed of as burnable garbage. ● For mineral oil (engine oil, kerosene, etc.), consult your dealer. |
| Hazardous materials | ● Put each item in a container at a resource collection point in the town ※Do not put out trash that cannot be collected. ● Dispose of cassette cylinders and spray cans without making holes. ● If the contents cannot be used up and cannot be emptied, consult a cleaning facility. | |
| Harmful substances | ● Dispose of only the unit in the containers at the collection points in the town. ※ Do not put out trash that cannot be collected. ● Take boxes and bags and sort them properly. ● Button battery (with SR, PR, LR symbols) ▶ Use of cooperating shops of the battery industry association ● Small rechargeable battery ▶ Dispose of it in special collection boxes in some public facilities | |

Items that cannot be accepted by the city (difficult to dispose of items)

Industrial waste ● Industrial waste ● Auto parts ● Oil (machine oil) ● Gasoline / kerosene ● Drums
 ● Lumber, timbers, logs ● Construction waste etc.
Agricultural waste ● Agricultural waste material ● Pesticide ● Agricultural equipment ● Corrugated board ● Vinyl house (seat / pipe) etc.
 ● Piano ● Storage room ● Electric reclining bed etc.
Medical waste ● Injection needle ● Syringe etc. ● Others ● Button battery ● Soil / mud / gravel etc.

Items to be brought into the cleaning facility (charged)

- Large primary garbage (moving, general cleaning)
- Mattress, sofa (with spring or magnet)
- Tatami mats (up to 16 sheets)
- Massage chair etc.

Items that require prior confirmation

- Frame
- Mortar(made of wood or stone)
- Lime
- Oil heater
- Tiles
- Wire rope etc.

Garbage generated by business activities (companies, offices, restaurants, shops, etc.), regardless of its quantity or type, [cannot be disposed at the garbage collection point (garbage station or recyclable collection point)! It is the responsibility of the business owner to dispose of it properly in accordance with the law!

- How to dispose of general industrial waste
- Bring it by yourself to the cleaning facilities
- Ask a licensed company for collecting and transporting general waste in Isesaki City
